Stitch tutorial

French knot:

Bring the needle out on the right side of the fabric and twist the cotton 3 times around the needle. Put the needle through the fabric close to the previous hole (but not the actual same one) so that the knot does not get dragged through to the wrong side of the fabric. To get a neat knot, use your left thumb to keep the cotton near the knot nice and tight against the fabric while you thread the needle and the cotton through the knot. That'll prevent the knot from coming loose.
