Stitch tutorial

Beads:

Start your stitch using the loop method. Thread your bead through the first diagonal stitch of your cross-stitch. For the second diagonal stitch, separate the 2 strands and keep them on either sides of your bead. This will ensure that it stays tight and upright. You can stitch individual beads in this way, or rows.

Diamond Eyelet stitch:

Start with a diagonal line (rather than vertical), and work from the centre of the diamond shape outwards, clockwise. Keep the top vertical line for last for a neater finish.
